Spacesaver Plinth Heater

A highly energy efficient fan convactor, our space-saving plinth heater is ideal for use under a kitchen unit or in other tight spaces such as stair risers, loft recesses and shop counters. The heater is fitted with a fan and has an overheat protection that will automatically turn the heater off if the elements reach the cut-off temperature. Supplied with brushed steel and white cover grilles, our unit ensures adaptability during on-site fitting, enabling the unit to be co-ordinated with any interior design.

Model code	KHE2*
Rating watts	1012 normal / 2025 boost
Height mm	100
Length mm	500
Depth mm	240

*Adjustable remote thermostat option RT002
